Please do not get into changing the rules of the Game... we currently have a
Solid set of rules to plan by... If you change them it only gets more
Difficult to provide a product at a profit that we can be responsible
To our work force in the community we operate in...

At the Ranch ... If you are in the way of a charging bull and you do not move ...

1. Stay out of our way....

1 Minute

- Please research all legislation (Read) to make sure it has a positive effect on small Montana Businesses. Keep changes positive...
- Reach out to us if you need information or have any questions to help you reach a decision on legislation that affect us..
- You have the ability to open up Interstate competition for Health Insurance... Just like auto insurance... Why not
- Give us room to grow... Listen to your local manufacturers ...

1 Minute

- Legislation that gives unfunded mandates to local governments can really have devastating results...
- Do not pass legislation that has questionable or insurmountable consequences on our work force... or our business...
- Get the Property Tax mess corrected.... Valuing property on like sales event that took place in 2008 is not accurate and does not reflect any thing close to reality... Every business must own or lease property... We need a firm base to operate from...
- Avoid legislation that provides Targeted Tax issues or Temporary Tax Holidays... Our experience is they are a nightmare...
